

Technical Sheet – Gorilla Traps Rat (brown)

Article number: 100023

Description:

Mechanical impact trap with 2 strong springs and bait tray.

Build with extra strong spring technology for even more humane killing of rodents.

Gorilla Traps® rat traps have a unique sensitivity adjusting system. This system allows not only to monitor rats, mice can also be cached. One can choose between 3 levels of sensitivity.

The trap is made of robust plastic and high- quality steel springs. The bait bowl is specially for the use of NARA® Non- Toxic monitoring products.

Application:

Gorilla Traps® are specially constructed to perfectly fit into matching stations. A list of recommended stations can be found on www.futura-germany.com.

For secure use please place the trap securely in the station. Slowly pull back the shackle with 2 fingers until you hear an audible "click". Place bait in bait tray before activating the trap!

The sensitivity can be adjusted at the bottom of the trap (3>1).

Technical specifications

Product size / dimensions (in cm):	14 x 7.5 x 6.8
Weight (in gram):	120
Colour:	dark brown
Material:	ABS +30% fiber
Country of origin	CN
Language of the label:	-
Dangerous Good:	No
EAN Code:	-
Customs tariff number:	73269098

Logistical information

Number of products per carton:	80 pieces
Carton size (in cm):	42.5 x 24 x 41.5
Weight of full carton (in kg):	10,5
Number of cartons per EPAL pallet (120x80x177 cm):	28 cartons = 2240 pieces
Gross weight of a full pallet (in kg):	315
